

# FIRE SWEEPS COMMUNITY HALL

On this site, six units battled a fire which soared through part of the Franklin Community Hall. On Tuesday, January 28, 1958, the Community Hall that had welcomed dances, parties, oyster suppers, plays, festivals and meetings had burned down.

The hall was “raised” through a bee. It was built so fast that they forgot to put in a stairway! It was built on the outside of the structure.
